STATEMENT REGARDING
NON-ENGLISH REFERENCES CITED IN PTO-1449 FORM

Hon. Commissioner of Patents
And Trademarks
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In conjunction with the Information Disclosure Statement, PTO-1449 Form, and copies of references cited therein, we note that four of the documents cited under "Foreign Patent Documents", and supplied, are not in English : EP 0472 853 A1; EP 0910 472 B1; DE 198 05 295 A1; and DE 433 00 933 C1.

To comply with MPEP 609, we note that all are cited in the text of our patent application at page 2, lines 14-22 and the relevance of these references is described therein. In particular, all four references teach known methods for the regeneration of denox catalysts that operate with reaction liquids, but which cannot specifically remove phosphorous. Each of these references shows that there was previously no possibility of treating catalytic disturbances due to the presence of phosphorous. For instance, DE 43

ALL REFERENCES CONSIDERED EXCEPT WHERE LINED THROUGH. /C.B./

Statement Regarding Relevance of Non-English References

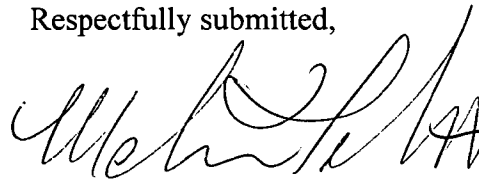

November 2, 2005

Page 2 of 2

00 933 describes the removal of metals from denox catalysts while retaining structure and activity, where two different gaseous phases are used; however, this method is not suitable for removing other pollutants from the catalyst.

The criteria for MPEP 609 having been met for these non-English references, entry and consideration on the record are requested.

Respectfully submitted,

Marlana K. Titus
